

Bizagi named 'Highest Ranked BPM Product' by Europe's most prestigious software engineering institute

Fraunhofer puts Bizagi on top of IBM, Oracle & Appian in its 2014 BPM suite analysis, scoring 70.3% overall in its 2014 BPM suite analysis, scoring 70.3% overall

Fraunhofer ranked Bizagi highest for product capabilities and ease of use, scoring 70.3% overall when compared to competitors.

“The way people can build a process application in Bizagi is very impressive. It is much easier than with most other platforms.”

Dr Sebastian Adam, Leader of Requirement Engineering & Head of Business Process Management Study, Fraunhofer IESE .

Rating categories

The independent analysis provides a detailed breakdown of the strengths and weaknesses of comparative vendors. All products were assessed not just in terms of functionality but also for simplicity, extensibility, integration capability, and usability. The rigorous assessment process comprised a one-day workshop during which suppliers were required to present their tool and walk through a range of simple and complex scenarios.

The competitors

Bizagi was assessed against 17 leading BPMS vendors:

- AgilePoint
- Agito
- Appian
- Appway
- AXON IVY
- DHC Business Solutions
- Groiss Informatics
- HCM CustomerManagement
- IBM
- Inspire Technologies
- JobRouter
- K2
- Metasonic
- Oracle
- PROLOGICS
- SoftProject
- T!M Solution

The results

Bizagi excelled in many areas including process modeling (80.9%), model export (100%), user comfort (78%) and integration (85.4%). This brought Bizagi's score to 70.3% overall, a best-in-field ranking against competitors including: AgilePoint (63.7%), Appian (59.5%), Appway (59.4%), Axon Ivy (66.7%), IBM (68.1%), K2 (55.6%) and Oracle (64.2%).
